Installing KEYWATCH mobile for Android

In order to install the KEYWATCH suite of apps on your mobile device, you will first need to send a valid Google® gmail® email address to support@keywaveproducts.com with the subject line 'KW Android app request'.

Once your request has been processed, we will notify you that you may access the following link on the Android Play Store to download and install KEYWATCH mobile for Android:

https://play.google.com/apps/internaltest/4700158456821092159

Once KEYWATCH is installed on your mobile device, you are ready to proceed with activation and use. Please see the Quick Start for Android User Guide for further instructions.
